

1. How to Register
2. How to login
3. How to use the Translation System

Step-1 Sign up

Register here, Complete and Submit

REGISTRATION / SIGN UP

As User →

Upon successful registration, you will see this message on your screen :

**Thank you. Your registration has been
successfully submitted.**

Check your email and SMS messages now

Step-2 Authentication

In your email, you will receive a LINK with an access code

Open this link: <https://vcua.attendedbyhumans.com/duasignup/identify?input=doctor> using Chrome or Safari. Enter 2FA code:

Code: **110728wN2**

Open the link (using Chrome or Safari) and enter the access code that was sent

Identity Yourself

Submit

1. How to Register

2. How to login

3. How to use the Translation System

Step-1

Enter your email address and the password [that you created yourself].

Login:

Submit

No password? [Register here](#) first.

Step-2

Following submission, you will receive an access code, by email [and SMS]

Two-factor login:

Submit

Check your email and mobile (Text Message) for access code.
Enter that code and submit.

1. How to Register

2. How to login

3. How to use the Translation System

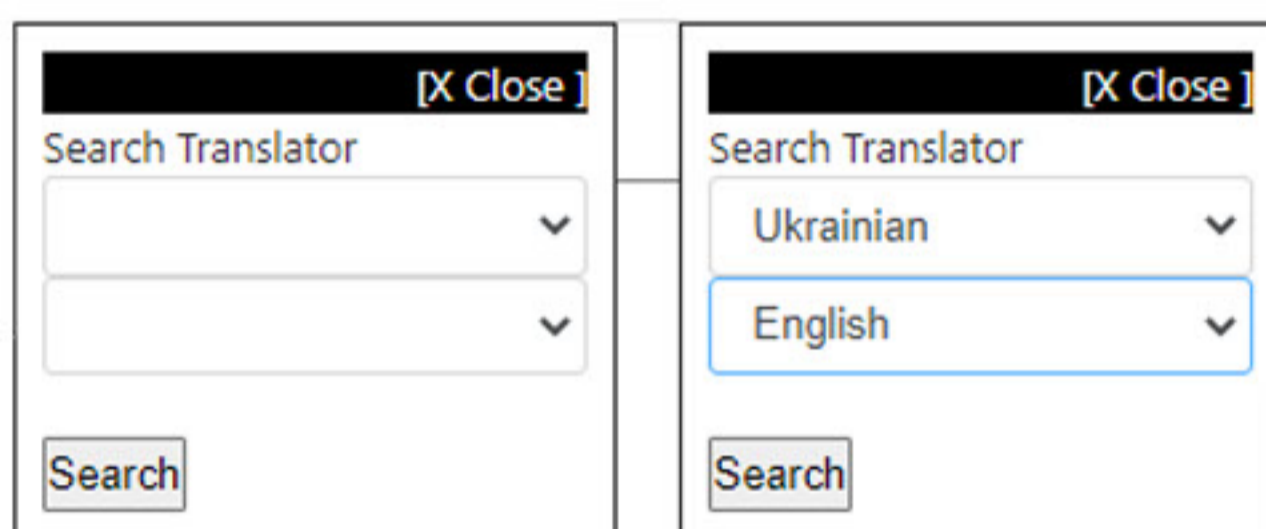

Use Chrome or Safari for this application.

Close all other 'audio' applications on your device [Skype, MS Teams, Zoom, Facetime, etc..]
Make sure to ALLOW the microphone when your browser makes this request.

To look for a translator, click this button

Search

Then choose the 2 languages [from – to] and click **Search**

The image shows two side-by-side screenshots of a 'Search Translator' interface. Each window has a title bar with '[X Close]'. The first window shows two empty dropdown menus and a 'Search' button. The second window shows the first dropdown menu set to 'Ukrainian' and the second dropdown menu set to 'English', with a 'Search' button below.

Close this box by clicking X Close

IF a translator – with the language combination of your choice – is online, you will see his/her Firstname. Click the **CONNECT** button to make the audio connection.

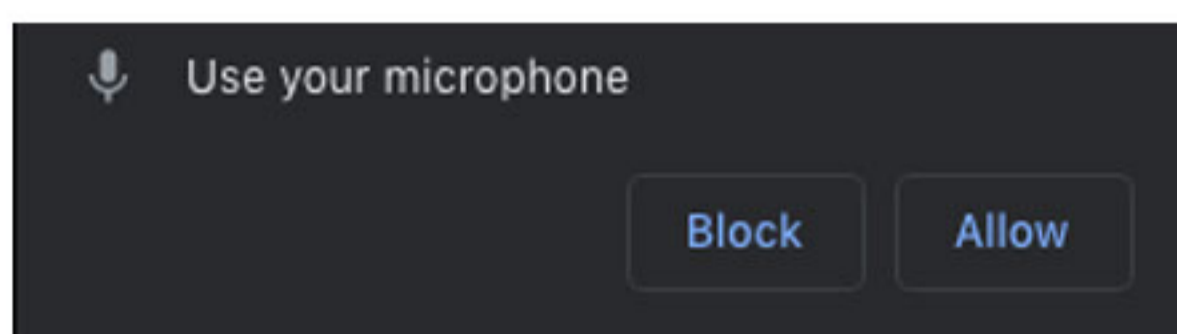

IF NO translator shows up, you may want to try another language selection [with 1 language that you master]. Or you may decide to try again later.

Click the OK button when this popup appears

The connection will start, when the translator has accepted the call.
Please wait...

OK

Click the ALLOW button to grant access to your microphone

Once the translator has ACCEPTED the call, you will see the status **CONNECTED**

You can now start the translation session.

Use the **RED DISCONNECT** button, to terminate the session.

Following every session, it is recommended to click the REFRESH button
